## GALLERY

### *Henry MacKeith: Sharing Light*

*These paintings and photographs have been created during H.M.'s participation in actions and political gatherings such as the G20 at bank, and the Climate Camp in Blackheath, 2009. The photographs have been exposed using a tent pin hole camera technique.*

*A time where media are grossly selective, where and photographing police officers is criminalised, leans itself to the re-discovery of impressionist agendas and techniques. The paintings and photographs of H.M. re-contextualise what was public spectacles into a private view (but outside the salon).*

*Henry MacKeith was born 1975 and lives in London.*
